

## 3xLOGIC's VIGIL Central Management Adds Value To Our Clients

"With 3xLOGIC's VCM as part of our full-service maintenance system, we offer a whole new level of service, a true managed service. Now, we know when a camera is down before the end user does." Unlike in the past, when you found out a camera was malfunctioning because you had no video of that recent incident you really needed to see."

"VCM as part of a managed services offering significantly strengthens our value proposition. Our clients can rest assured that their cameras and video servers are functioning and that they will deliver video when it matters most."
