ACCESS CONTROL | infinias

infinias® CLOUD

infinias CLOUD delivers broad access control capabilities within a simple, intuitive, browser-based interface to conveniently secure and manage user location(s). This cloud-based solution makes access control practical and affordable for any user, regardless of technical experience or business size. User's can easily view, monitor, and report on any or all events and alarms; define multiple security roles, and access privileges for individual users.

- **Simple & Affordable**
  - ▶ No Server, No Maintenance
  - ▶ Automatic Updates When Available
  - ▶ Pay as You Go and Only for What you Need, i.e., per Door/Activated Credential
- **Infinite Scalability**
  - ▶ Unlimited Doors, Cardholders, Credentials
- **3xLOGIC Video Integration**
  - ▶ Available in infinias CLOUD and Site Access Mobile App
- **Site Access Mobile App for Mobile Management**
  - ▶ View Events
  - ▶ Disable Card Holders
  - ▶ QR Code Feature for Simple Hardware Setup
- **Use Mobile Credential App in lieu of Physical Card**
  - ▶ Momentarily unlock User Assigned Doors
  - ▶ Location Services for restricting access
  - ▶ Multi-factor Authentication
  - ▶ Ad Hoc and Automated Push Notifications

Customizable Rules Engine: In addition to common access control features, our powerful rules engine allows flexibility in providing users the ability to build customer tailored functionality specific to their needs, such as Lock Down, First In, Last Out, N Man Rule, and much, much more.

People and Groups: Easily manage people, groups, roles, privileges, and credentials from a simple user interface.

Door Status: Simple icons provide a quick visual reference for door status monitoring.
